**ANNUAL GIVING FUND 2017-2018  
"TARGETING TECHNOLOGY"**

TECHNOLOGY - it touches every part of our lives. That includes school. It is imperative that teachers and students have up-to-date technology in the classrooms in order to prepare our students for the world they will face moving forward to high school, college, and careers.

While the administration and faculty have endeavored to keep pace with educational technology, it changes so rapidly that current technology goes out of date (or out of maintenance) quickly. Currently there is a need for several SmartBoard upgrades and new work stations with state of the art licensing. This year's Annual Fund will target technology in order to keep the school on the cutting edge of technology while teaching safe and appropriate uses of this wonderful tool.

**THESE TECHNOLOGY UPDATES WILL COST \$35,000**

Please read the enclosed letters from our Student Council Commissioner General, Loius Wood, and our principal, Mr. Maestranzi.
